Open Studies

Last updated: 3/30/26

Study Name	Purpose	Criteria	Hopkins Patients Only?	Contact Number	Contact Person
HIV					
Bartlett Bridges Study	To try and improve clinical care for women living with HIV/AIDS who have been in an unhealthy relationship with an intimate partner	Women ages 18 and older who are living with HIV; must be a Bartlett Specialty Practice patient; able to read/speak English	N	410-415-3666	Ask for Bartlett Bridges coordinator
UPitt Patient Survey	To understand the health experiences of people with HIV who use drugs	Adults ages 18 and older who are living with HIV and have been prescribed ART for at least one year; must have history of illegal substance use (not marijuana) or prescription drugs for non-medical reasons	N	412-467-6663	Ask for Patient Survey
ART Start Study	To study how HIV hides in the body since it may point the way to an eventual HIV cure	Adults ages 18 and older who are living with HIV and are about to start or re-start HIV medication after 2 or more years off treatment, willing to have a large blood draw	Y	410-487-3511	Christina Bunch
RADX HIV Study	To evaluate new HIV viral load tests and see how well these tests work so that they can be used more widely to get people diagnosed and treated more quickly	Adults ages 18 and older living with or without HIV	N	443-500-3071	Tanique Bennett
HIV/Hep B Study	To evaluate new therapy in participants with HIV and chronic Hep B co-infection on antiretroviral treatment	Adults ages 18 and older living with HIV; on HIV and Hep B medications for at least 1 year; suppressed viral loads for both HIV and Hep B	N	443-927-2798	Savannah Greene
SUD BRAIN Study	To study brain imaging with MRI in people living with HIV with or without cocaine use disorder	Adults ages 18-80 living with HIV	N	443-326-1965	Ask for Brain Health Program
DEPTH Study	To study if doxycycline will slow the progression of emphysema in PLWH	Adults ages 30 and older living with HIV, have smoking-related lung disease	N	410-550-0800 sbaybay1@jhmi.edu	Sydney Baybayan
SAVVY Study	To assess if viral suppression can be improved in youth and young adults with HIV if they are counseled on ART options and supported in accessing long acting injectible ART if that is their choice	Ages 12-30 and living with HIV	N	443-500-2218	Ask for SAVVY Study
Hearts Research Volunteers Registry	To create a registry so the study team can connect with people interested in volunteering in research studies at the Johns Hopkins Drug Development Unit	Adults living with or without HIV	N	410-955-1288	Ask for the Hearts Registry
SONIC Study	To study drug use along with sleep, daily step counts, and other experiences	Adults ages 18 and older living with or without HIV, history of opioid or stimulant use, no history of injection drug use	N	410-955-7510	Andrea Ponce
BOBY Study	To assess uptake of Biktarvy, evaluate outcomes compared to other INSTI-based regimens, and assess patients' perspectives on Biktarvy's acceptability, adherence, side effects, quality of life and what they would change about regimen if given the chance.	Adults under 30 living with HIV; currently taking Biktarvy	N	443-287-8888	Elise Ohene-Kyei

ALIVE	To follow current and former injection drug users over time	Adults ages 18 and older, has injected drugs	N	410-955-7510	Ask for ALIVE study
COC4 Study	To study brain imaging with MRI in PLWH.	Adults ages 30-90 living with HIV, have an undetectable viral load, and are not using recreational substances of abuse	N	410-709-8747	Ask for Brain Health Program
AIDS Malignancy Consortium Studies	To investigate new treatments and prevention interventions for malignancies in people living with HIV (specifically lymphoma and Kaposi Sarcoma)	Adults ages 18 and older living with HIV and have lymphoma or Kaposi Sarcoma	N	410-502-5396	Laura Clark
HIV Outcomes Study	Observational study to help better understand how treatment in medical care affects the course of HIV infection	Adults ages 18 and over living with HIV and enrolled in medical care with an HIV provider in the Hopkins Barlett Clinic on or after 1/1/14	Y	410-955-6415 410-955-9872	Keyera Anderson Stacey Reese
PrEP					
ER PrEP Aim 1 Study	To understand how to better support PrEP access in the Emergency Department	Adults ages 18 and older; interested in starting PrEP or on PrEP currently or in the past	N	202-644-8208	Ask for ER PrEP Aim 1 Study
PrEP ER Study	To hear from previous patients to help develop a program to provide HIV PrEP in the emergency room for patients who need or who want PrEP	Adults ages 18 and older; on PrEP or have been on PrEP in the past; seen in Hopkins ER in the past 6 months	Y	443-202-3914	Ask for ER PrEP Study
MATCH Study Formative Phase (formerly CHARM)	To understand the lived experience of Black women and their sexual health thru a 45-60 minute interview.	Black women, ages 18 and over, HIV(-), sexually active in past 6 months, English speaking	N	410-696-3316 charm@jh.edu 443-596-4530	Saisri Gussenhoven
MATCH Study Intervention Phase	To understand the lived experience of Black women and their sexual health thru one-on-one sessions and support groups.	Black women, ages 18 and over, HIV(-), sexually active in past 6 months, English speaking	N	410-696-3316 charm@jh.edu 443-596-4530	Saisri Gussenhoven
ADDICTION/SUBSTANCE USE					
SUD BRAIN Study	To study brain imaging with MRI in people living with HIV with or without cocaine use disorder	Adults ages 18-80 living with HIV	N	443-326-1965	Ask for Brain Health Program
SONIC Study	To study drug use along with sleep, daily step counts, and other experiences	Adults ages 18 and older living with or without HIV, history of opioid or stimulant use, no history of injection drug us	N	410-955-7510	Andrea Ponce
ALIVE	To follow current and former injection drug users over time	Adults ages 18 and older, has injected drugs	N	410-955-7510	Ask for ALIVE study
YOUNG ADULTS					
SAVVY Study	To assess if viral suppression can be improved in youth and young adults with HIV if they are counseled on ART options and supported in accessing long acting injectable ART if that is their choice	Ages 12-30 and living with HIV	N	443-500-2218	Ask for SAVVY Study

BOBY Study	To assess uptake of Biktarvy, evaluate outcomes compared to other INSTI-based regimens, and assess patients' perspectives on Biktarvy's acceptability, adherence, side effects, quality of life and what they would change about regimen if given the chance.	Adults under 30 living with HIV; currently taking Biktarvy	N	443-287-8888	Elise Ohene-Kyei
HER Experiences	To help better understand how past experiences, and where these experiences take place, impact the sexual health and well-being of young Black women in Baltimore	Black women ages 18-25 who are at risk for HIV	N	410-635-0025	Ask for HER Experiences Study
MATCH Study Intervention Phase	To understand the lived experience of Black women and their sexual health thru one-on-one sessions and support groups.	Black women, ages 18 and over, HIV(-), sexually active in past 6 months, English speaking	N	410-696-3316 charm@jh.edu 443-596-4530	Saisri Gussenhoven
DIABETES					
Diabetes Prevention Program	A quality improvement program to prevent or delay type 2 diabetes	Adults with pre-diabetes	N	410-614-2701 brancaticenter@jhmi.edu	Ask for Diabetes Prevention Program
TUBERCULOSIS					
Latent TB Study	To study if financial incentives and usage of a mobile phone application for adherence support can help patients complete their course of latent TB therapy	Adults starting treatment for Latent Tuberculosis	N	443-837-5588 443-599-9280 443-687-7826	Marina Martinez Rivera Teresa Gonzalez Rivera Kevin Centeno
HEALTHY VOLUNTEERS					
ER PrEP Aim 1 Study	To understand how to better support PrEP access in the Emergency Department	Adults ages 18 and older; interested in starting PrEP or on PrEP currently or in the past	N	202-644-8208	Ask for ER PrEP Aim 1 Study
PrEP ER Study	To hear from previous patients to help develop a program to provide HIV PrEP in the emergency room for patients who need or who want PrEP	Adults ages 18 and older; on PrEP or have been on PrEP in the past; seen in Hopkins ER in the past 6 months	Y	443-202-3914	Ask for ER PrEP Study
MATCH Study Intervention Phase	To understand the lived experience of Black women and their sexual health thru one-on-one sessions and support groups.	Black women, ages 18 and over, HIV(-), sexually active in past 6 months, English speaking	N	410-696-3316 charm@jh.edu 443-596-4530	Saisri Gussenhoven
RADX HIV Study	To evaluate new HIV viral load tests and see how well these tests work so that they can be used more widely to get people diagnosed and treated more quickly	Adults ages 18 and older living with or without HIV	N	443-540-0560	Harris Bayan
Hearts Research Volunteers Registry	To create a registry so the study team can connect with people interested in volunteering in research studies at the Johns Hopkins Drug Development Unit	Adults living with or without HIV	N	410-955-1288	Ask for the Hearts Registry
SONIC Study	To study drug use along with sleep, daily step counts, and other experiences	Adults ages 18 and older living with or without HIV, history of opioid or stimulant use, no history of injection drug use	N	410-955-7510	Andrea Ponce

HER Experiences	To help better understand how past experiences, and where these experiences take place, impact the sexual health and well-being of young Black women in Baltimore	Black women ages 18-25 who are at risk for HIV	N	410-635-0025	Ask for HER Experiences Study
MATCH Study Formative Phase (formerly CHARM)	To understand the lived experience of Black women and their sexual health thru a 45-60 minute interview.	Black women, ages 18 and over, HIV(-), sexually active in past 6 months, English speaking	N	410-696-3316 charm@jh.edu 443-596-4530	Saisri Gussenhoven
